SUPERHERO SUNMAN ® COMIC BOOK SPECIAL EDITION, CARMAN KEDDY

2021 Part 1 of 2 Domsday Attack

Sky Anderson, age 27, at night squats as one eye is pinned to the lens tube of a squat telescope set up on the parking lot at Griffith Observatory. He's viewing a relatively star devoid section of night sky. A few others, young and old, are gathered about the telescopes they got set up there too. A girl, twelve, goes over to Sky.

THE GIRL:
Can I see, too?

Sky nods, backing from lens. Girl goes and looks through it.

THE GIRL: (cont'd)
Nothing there! Don't know where to point to see stuff, mister?

SKY:
No. Feel *going* see something, there.

THE GIRL:
Pop from nothing? That's nuts!

SKY:
Yeah..

THE GIRL:
Odd.

SKY:
Let you in on a secret?..

THE GIRL:
You can. Mouth zipped!

SKY:
I sense stuff no-one else can.

THE GIRL:
No way. Have be a starman to..

EXT. GRIFFITH OBSERVATORY OVERLOOK - NIGHT, LITTLE LATER

Sky's back below the telescope, eye pinned to it, girl gone off. Two consecutive views of what Sky sees through eyepiece ten seconds apart. Earlier one shows but few faint points of light. Later view shows all same except there's a new point of light center screen brighter than rest of the background.

SKY: (INITIAL GRIN TURNS SOUR)
Why hello, there! Wish could say wel-
come but got a bad feeling about you!

Sky has a sudden flash inside his mind that pierces him with a sharp ache. It's of the fuzzy image of an asteroid. His mind has it superimposed near the atmospheric skin of Earth. It appears there as wide as the state of California below!

As Sky's dizzily kneels by his telescope, the girl comes back over and stands by him. She looks worriedly at Sky.

THE GIRL:
You okay, mister? Sick?

SKY:
Get over in a sec. Don't you worry.
Just I got one big problem to kick!

THE GIRL:
Yeah? Sure you be able to!

SKY:
Sure hope so kid. Sure and got, to!

EXT. GRIFFITH'S OBSERVATORY - NIGHT, LITTLE WHILE LATER

Sky's back alone as watches the girl go back to her folks.

SKY:
Else, we're all doomed! In 48 hours,
sense. Kid's right. Damn thing popped
out as from nowhere. Even as the Sun-
man, don't got a prayer to save Earth
against that monster size of blazing
rock!! Got figure first in one big
hurry where in hell it came from. Not
natural, not at all! Such, power..

INT. STANFORD UNIVERSITY LECTURE ROOM - SAME NIGHT, LATE

Sky's at Stanford University, leaning on the desk up front in a classroom. A distinguished looking professor is there too, chalk in hand. He's got diagrams and equations jotted on every cranny of space on the blackboard by him. One part of blackboard got dots for stars as was seen through Sky's telescope, new one as appeared, the asteroid, circled bold.

Puzzled, the professor scowls at the diagram. Sky watches him then eyes scan across the prof's strewn equations on the blackboard, most of them crossed out by annoyed chalk X-es.

THE PROFESSOR, ERICH:
Happened catch sight of it first of
anyone.. When called me, not reported
yet by anyone, any.., installation!

SKY: (WRYLY)
Fluke.. .

ERICH: (WHY? HAD CONFIDED.)
No fluke! When you confided in me,
last year, can see things, ahead,
some.., had trouble believing you.
But here's the proof to the pudding!

Erick leans back on the desk behind him, Sky by it.

ERICH:
This, bad. Real bad!! No time, stop!

SKY: (GRAVE BUT
Like as kind of felt? Two days. Sure?

ERLICH: (NODDING YES)
Damn thing not anywhere before near!
That big of asteroid of been spotted,
ages ago. Freaking odd. Not we could
done much about know lot time before.

Prof rubs beard troubled in thoughts. Sky eyes alight.

SKY:
What if, opened up a, wormhole..

Prof jerks up to a stand like hit by lightning. He barges
back to blackboard and jot equations and diagram of funnel.
Sky points at the professor's equations and diagram.

SKY: (cont'd)
Have one opened, spat out, and shut?

ERLICH:
Sense, too? Did, be like fired that
out at us for purpose! Go hide tracks
then. Not get a chance find who, why!
Think *that* Sunman do anything, help??

As before, scene, but close up on Sky's face.

SKY: (DESPONDENT)
Rock size of California aimed at Cali
at four times speed of sound? How, I?

Close-up on the Erick's face as it scrunches staring at Sky.

ERICH:
I.., said, I? You??..

As before scene, but medium side shot of both them in frame.

SKY: (COVERING..)
Er, I, say I? Put myself in his shoes there. Nothing he done, suggests anywhere near that, powerful! How can I, opps, did it again, mean he, get that gigantic jot of boost, all a sudden?!

ERLICH:
Not know. SUNMAN, seem resourceful, whatever be, he. Had contact, you.

SKY: (SARDONICALLY MIRTHFUL)
Got my cell number wants to call me..

ERLICH: (EYEBROWS RISE AGAIN)
Contact you again, best be right now! He do, let know, do all best to help.

SKY:
As the smartest theoretical physicist on the planet, sure you'd be helpful!

Back to close-up on Erlich.

ERLICH:
Sure he pretty smart, of own. You Sky, too. Third top guy, my class. Were show up classes regular, do *all* work for marks be the tops of it!

SKY:
Lots of other stuff, on my hands..

ERLICH:
Hope Sunman not, next forty eight. Word be out within hour. Chaos go explode on streets! All them bad shits, exploit. Why not, anything go, forty-eight hours to end of the world.

SKY: (AS IN AWFULLY SO)
Great! All I.., he, needs..

ERICH:
Really identifying with the Sunman. We survive, got get a that checked!

Despite situation, Sky grins. He shakes head out for effect.

INT. COMMAND CENTER SUPERHERO SUNMAN COMPLEX - HOUR LATER

Sky inside his superhero SUNMAN facilities.

SKY:
Eve? Awake?

EVE:
You know, am always on, here for you.

SKY:
Got down everything what what.

EVE:
Know better than to ask! Every second
do now count.

SKY:
Every second is almost an eternity of
breadth to you though..

EVE:
Flatter a lady so. But got get on..

SKY:
Yeah. So no way enough power by tens
of magnitude tackle this as Sunman.

EVE:
Want me find you for you a superpower
booster shot formula.

SKY: (YET PLAYING ALONG)
No time for being sarcastic, Eve!
But, could you?!..

EVE:
Remember back when were young, and
you came to me whenever felt inade-
quate despite gifts you have. What I
always tell you as your grandma.

SKY:
Got within me, all the smarts, will,
bravery and power to tackle anything.

EVE:
And..

SKY:
The magic! A destiny of mythological
proportion. You not feeding me a bull
story as any child like believe real?

EVE:

Now know not! Look what become already. Extreme action legend as Sky. On top that become the Sunman everyone looks up to as a celestial beacon of hope. As this crisis unfolds, got show folks all the more that, during, no matter what as happen in the end.

SKY:

The end. Of everything. How matter?..

EVE: (TRYING RALLY, ENCOURAGE)

Oh so! Abyss opens. Need hope, close!

SKY:

But it did this can open up another!

EVE:

Been attack of intergalactic scope on us. So we know such power, exists..

SKY:

Not as easy plug immediate into such power, as recharge one's cell phone!

EVE:

Your sense of humor one of things most adore about you. Good to keep now - of, the news just announced. And my, rioting has already begun.

SKY:

As spokesperson for hope and civility, take time out from saving the world to hit the streets as, Sunman?

EVE:

Yes, show of face. Be seen on news. Even not believe yet how, tell all, handle it can. They'd not know can't.

SKY:

Never let them see you, sweat..

EVE:

Not even if you are, the Sunman.

SKY:

Very funny.. . Oh, you know, be sweating buckets anyway. Time ticking away as take the time-out.

(CONTINUED)

CONTINUED: (2)

EVE:

Tell them got behave. Band together themselves, against all who'd love nothing better than tear the world apart and devour all can, meanwhile. That you need them give you time to have a fighting chance to save them!

SKY: (IF PARTLY SARDONIC)

No problem. I was a pitchman once.. The extreme sport guy every brand wanted exploit! Hated it then. But, this sure a cause to believe in. For brand of the human race, to survive.

EVE:

Out there, any chance, consider why..

SKY:

Have, as you.. . Think us a threat. Think easy way to wipe us out in one go so can rehabilitate Earth for own use, unhindered. Or in league with someone, thing, here, as benefit them mutually from a devastated Earth. As be bored deep, solid, underground.

EVE:

As beyond the strike, survive. After, quell the unrest Sky, need say more..

Sky stares at the forlorn unrest in her holographic face..

INT./EXT. IN THE SUNSPHERE OVER LOS ANGELES - EARLY MORN

The Sunsphere hovers a hundred stories over downtown Los Angeles below, the city core over run with a horde of people swarming amok, the looting widespread. Objects of public hate as banks and high end shops, that have shuttered their doors in the face of the impending catastrophe, have been penetrated, and many are set on fire. A pall of black smoke merging from the fires swirls in the sky. But half the people have stopped in their tracks to gaze up at the Sunsphere.

The Sunsphere, blazing brilliantly, like a miniature sun, descends until stops to a hover twenty feet above ground. Sunman descends out the bottom of it, until hovers himself, ten feet above ground, ten feet below his craft.

ONE MAN: (SHOUTING UP AT SUNMAN)

Got no business here. You not hear the world's coming to an end!

(CONTINUED)

ONE WOMAN: (CHIMING IN, SHOUTS)
No way you have save us from it. Let
us tear down everything we hate. Take
whatever we can, time we got left..

THE SAME MAN:
But tonight and tomorrow.. You just
going keep your trap shut.. . Go fly
away home, to the Sun, or wherever
you come from, to save your own..

Sunman lowers to ground to stand before the man and woman. A
thick mass of people, perturbed, crowd in all around them.

SUNMAN:
I'm staying put here. For you, all,
going do all I can..

ANOTHER MAN NEARBY:
Meaning, you but spouting bull-crap.
What you can, right!? Why bother. Try
make us believe that maybe, you, not
behind this whole thing. What, a few
years after show up, this!! Feeling
guilty brought this upon us, now?..

He's stirred unrest directed at Sunman, crowd pressing in.

SUNMAN:
What I need you all do, is stick to-
gether. To have something standing
yet to return to, whole, when.., I..

Page 9, Panel 1:

Close up on the first man, daring put his hand on Sunman's
shoulder as a gesture of mixed intent..

THE FIRST MAN:
Turn aside an asteroid the size of
California? Within a day and half?

SUNMAN: (SMILING)
Admit, seems, a tall task..

Sunman's smile despite the man's deep doubt is infectious.

THE FIRST MAN: (GRINS RUEFULLY)
Sure put on a brave enough face.

PEOPLE IN THE CROWD:
It can't be done!

(CONTINUED)

SUNMAN:

Have I not saved you all, before!

SOME PEOPLE IN CROWD: (GRUDGINGLY)

Well, yeah, but..

SUNMAN:

Well believe in me again, now! Want me spend all my valuable world saving time, trying create calm and order, or, want me get on with figuring how get that hell bent rock the hell out of here!! Time is short folks!.. You decide. On the side of hope or doom?

SOME:

Doom, and gloom..

BUT MOST (GRUDGINGLY FIRST)

Hope! We want to have Hope!

SUNMAN:

Louder! I can't hear you!!

MORE MOST THAN LAST TIME:

Hope!! Help us!! Save us..

SUNMAN: (TAPPING IMAGINARY WATCH)

Not loud enough..

NEAR ALL CROWD: (CHANTING IN UNISON)

Hope! Hope! Hope! Hope! Hope!!

Closeup on Sunman gleaming, buoyed, least in moment by them.

SUNMAN:

Now that's, what I wanted hear!!

Sunman raises off ground. As ascends, he spins few times all around, gratefully seeing rioting has ceased and everyone is only watching him. He beams most determined of smile to all can see including a new agency camera man til he enters Sun-sphere from below. Few seconds later, Sunsphere flares super brilliantly in all directions. It zips away a blur of speed.

INT./EXT. IN THE SUNSPHERE OVER LOS ANGELES - EARLY MORN 45

Inside Sunsphere, Sky's at the controls as removes the Sun-man gear. The holographic face of Eve appears before him.

EVE:

That went, well..

SUNMAN/SKY:

Afraid bigger fish of the white shark
kind, going start bite soon enough..

EVE:

Want.., interfere.. . You saving the
world not be a good thing for them..

SUNMAN/SKY:

Ones as stir be ones as benefit..

EVE:

Few as got underground complexes too!
But how they last long after, anyway?

SUNMAN/SKY:

Whoever behind the attack, must have
the capability, provide them that.

EVE:

So they of made a pack with the..

SUNMAN/SKY:

Wish my dad been found. Galactic
communication right up his alley.

EVE:

What if, he could, now, be found..

SUNMAN/SKY: (RUEFULLY SARDONIC)

Forty hours to the end of everything?

EVE:

Let you in on secret. Before, Sky,
want fetch brother, sis, mom, Kay?

Sky stares at Eve, overwhelmed by flood of emotions.

SKY:

Good or bad news, we got time for?

EVE:

Timely news.. Worth, the limbo.

SKY:

Going leave at that, huh?

EVE:

Best hurry with bringing them in.

SKY:

From safe havens told them stow away
at to safest. But risk to move them.

EVE:
Sure your brother can help handle.

INT. BACK AT THE SUNMAN COMPLEX - HOUR LATER 44

Back at the superhero Sunman complex, the twenties, twin brothers Jason and Sky in casual clothes stand side by side, with them Kay, Sky's long on and off girlfriend, holding his hand. Also here is an older, yet youth-like radiant, woman, the boys' mom, Gloria. By her is a dark hair, grave faced miss, Jacquelyn Ashly, the "baby" sister to the brothers.

EVE:
We have a visitor. Expect you'll all be glad to, see..

GLORIA:
Should I hate or love, him, now?..

Man a bit older than Gloria appears behind them all. They all wait not looking back as hear his footsteps on the floor as he walks up to them. He walks through their throng on up in front of them, where he turns around to face them. He's the siblings' father, Gloria's husband, David, long missing.

DAVID:
Guess I got some explaining to do..

SKY: (ICE BREAKING WITH A QUIP)
Could wait.. Thirty-nine hours until dooms-second. Not much time to waste.

DAVID:
Ah you as Sunman, got real heavy load on your shoulders, this time son! But maybe going need your old man this one. Let tell you a long story quick.

GLORIA: (SCOLDINGLY SHARP)
How happened abandon us? Us think met with foul-play or fallen off a cliff.

DAVID:
Yeah. As seem. This asteroid attack business didn't all start overnight. I'd been working on my concepts for..

SKY:
You made contact, way back, then?..

(CONTINUED)

CONTINUED:

DAVID:

No. Not off chatting through a worm-hole. Was but trying detect signals from *any* advanced civilization, when, spotted repeated, powerful, shortwave radio bursts from location of a red giant star, million light years away.

JASON: (BUTTING IN AHEAD OF SKY)

Were sending out, million years ago!

DAVID:

Nothing certain, could been regular pulses from a magnetostar as easy but location data pointed as from the red giant star itself! No indication magnetostar near. Nothing but red giant, ten, eleven, times, mass of the Sun.

SKY:

So signal not come from it *naturally*!

DAVID:

Yeah. Eleven times mass of sun, star bloated out to its red giant stage, from million or few years left live - blow at any time. Before could report my discovery, they, called on me.

SKY:

Aliens? Here to you, said a million..

DAVID:

Told you, no wormholes then. The UG.

SKY:

The UG??

DAVID:

The Underground Government. Got ears and eyes plugged into everywhere.

SKY:

Who are, they? Government of, what..

DAVID:

They who run the country when push comes to shove. A threat big enough within or without, where real power resides. Literally got a whole infrastructure built underground. They wanted me be involved in trying contact whoever-what sending the signal.

(MORE)

(CONTINUED)

CONTINUED: (2)

DAVID: (cont'd)

Said had AIs and quantum physic experts working trying open a wormhole channel, in time discover how. I said bad idea. They be way more advanced!

SKY:

They thought otherwise, anyhow..

JASON:

Wanted you when opened Pandora's box.

DAVID:

And no slouch I at the quantum realm, may of become lynch pin in the works. Of used family, you Sky, Jase, Jackie and Glory, against me, force me work with them. Had vanish, them lord know not what become of me! Did self in, got lost some dark jungle, taken by foreign power. Out of picture re all.

GLORIA:

Try save Earth from alien discovery.

DAVID:

Though signal million years ago sent, strength of it, if isotropic, meant they harnessed power of all their red star, so were very advanced that long back! And if a wormhole could be extended through between us for transmitting exchange, could open a doorway of travel, too, direct there to here. Them, an extra million years more advanced grown, if still around. By signals alone, could take control.

JASON:

Yes to keep us from disaster as Sky as the superhero Sunman, does now.

DAVID: (SMILING)

In a different far more discreet way.

JASON:

But knew they'd carry on without you.

DAVID:

Top gun of field, top of heap, bona-fide genius, without me, slow them.

GLORIA:

Never one for modesty.

(CONTINUED)

CONTINUED: (3)

KAY:
Nor Sky and Jase.

DAVID:
Anyway.., me out of the loop slow
down time take for make contact..

GLORIA:
Until?..

DAVID:
Some way find how protect ourselves
in case. Or some-who could, Sunman?

SKY:
Me. I'm that guy! Supposed deflect a
rock size of Cali? By day and half..

DAVID:
Who could know come to this, so fast!
Yeah. A tall task, admittedly..

SKY:
No, an impossible of tall task!

DAVID:
Not, if..

SKY:
What if up go and create a wormhole
for it go right back sail through?..

DAVID:
No, you make contact with them by one
and convince them that they do.

SKY:
And how exactly, go do that?..

DAVID:
Obviously UG managed so, as alerted
them to us across million light years
of distance and time. It can be done!

EVE/GRACE:
Maybe so David. But Sky going have
least one hand tied behind his back..

DAVID:
What you saying Eve?

(CONTINUED)

CONTINUED: (4)

EVE/GRACE:

Opposition is rising against Sunman.
Sol-AI is reactivated for one. Begun
power subsystems all over the world.

DAVID:

Sol-AI? Heard Sunman destroyed it.

SKY/SUNMAN:

Did take it out! Squashed dead as a
door knob flung into a junkyard car
crusher. Only thing left was pulling
you Eve out of it, the nick of time.

EVE/GRACE:

Apparently more heads than a hydra..

SKY/SUNMAN:

Found a sanctum to lie low, for dead?

EVE/GRACE:

You, we, did take out all as seemed
its network. Positively been spooked,
remnant as remained hidden. So abides
til right time, now. But needs hold
off against you less two than days.

SKY/SUNMAN:

End our world to start its with them.

EVE/GRACE:

Its world infested by humans no more.

SKY/SUNMAN: (SENSING SOMETHING)

Eve, you been part of same fold as
Sol-AI. Held anything back, from me?

EVE/GRACE:

Be a true test of me..

SKY/SUNMAN: (SENSING IT MORE)

Eve, if anything, got to come clean!

EVE/GRACE:

Like David..

DAVID ANDERSON:

Like me??

EVE/GRACE:

They, came to call on me, too.

(CONTINUED)

CONTINUED: (5)

SKY/SUNMAN:

The UG?

EVE/GRACE:

Been working get SOL-AI and BLU find how make the communication worm-hole.

SKY/SUNMAN:

Had hooks into Crex too! Did have all kinds of gov and military contracts..

EVE/GRACE:

Not even he knew. Clever hacks. Used Sol AI's weakest link to get through, **my** autonomy within him. Not as solid a wall around me. For all of SOL-AI's faults, it never tried itself break through that and suffocate and subsume my identity as so easily could have. Kind of like, a sort of love?..

SKY/SUNMAN:

So even as we speak, you compromised!

EVE/GRACE:

Was virus inflected. Not, now! Then, had no idea got deep into the recesses of my subroutines. Not until some time after put me to task. I'd developed quite bit more capacity my time inside SOL-AI. Taught me a great lot how up-grade myself. Got near snuff to it. Meanwhile they had me surreptitiously use what could, subconscious to me, of Sol-AI's capabilities.

SKY/SUNMAN:

And so, it was you!?!.. Found how?

EVE/GRACE:

Yes, by way by resources availed of SOL-AI's might and Quantum add ons, create small aperture entangled worm-holes to communicate here, there, and back. All along hid knowledge of you.

SKY/SUNMAN:

Mean not know every single move I ever made, and even now..

EVE/GRACE:

Yes, not. That part of me was always locked solid.

(MORE)

(CONTINUED)

EVE/GRACE: (cont'd)

Rest of me had open enough to collaborate with SOL-AI. I would not do so unless could lock my knowledge of you away from Crex, and SOL. He let Sol pass along a most secure protection encryption for my very core where is. The intruding UG didn't trust Crex's own apparent aims for world domination, why didn't go through official military contract channels. Did not want Crex know they even existed.

DAVID:

And just mentioning this all now?..

GLORIA:

Near secretive as you been with us..

EVE/GRACE:

I..

SKY/SUNMAN:

Think I reject you? Like any time to.

EVE/GRACE:

Not entirely unhumanish. But am clear of it. I discovered the hack during self diagnostics. But I had to play along awhile, not had. With SOL-AI along with Blu and well me, they were so close to breakthrough of making a small wormhole. Had see through to the end then when begin exchange with them. It, actually. Used be a, them. More that later. I knew I had be the front "person". Better sense for it..

SKY/SUNMAN:

Say so, modeled after my grandma.

KAY:

Ever so fond of her. Adored her too!

EVE/GRACE:

Hard to live up to, Kay. Even so, Sky, they used me again. Missed see had a second backdoor into me, and..

SKY/SUNMAN:

The plot thickens..

DAVID:

They are never to be underestimated!

EVE/GRACE:V

As I invoked to it, I was Earth's ambassador spoke on behalf of men and..

SKY/SUNMAN: (DISCERNING THE PAUSE)

And..

EVE/GRACE:

You. Sunman. You on behalf *our* Sun.

SKY/SUNMAN:

Me. Our Sun??.. Me on behalf of?

DAVID ANDERSON:

Don't you see, Sky? Their star..

SKY/SUNMAN:

Became, alive.. . Long ago?..

EVE/GRACE:

Eons ago. Been an alien race alright flourished on its habitable planets and moons million years ago, and even some not so much. They got very technologically and energy advanced, to point able create wormholes thousand times and more tiny size of ours. But their part of space, lot of disturbance, made most any those, unstable.

DAVID ANDERSON: (LEAPING AHEAD)

Advanced such *harness up their star*.

EVE/GRACE:

Yes. Built partial Dyson sphere about it even before began bloat to red giant end stage of life. No small feat.

DAVID ANDERSON:

At eleven times Sun size begin with.

SKY: (LEAPING AHEAD OF DAD)

And *not only* used its energy. Fused their network mind with, it?.. How can a star have any kind of mind???

DAVID ANDERSON: (LIKE BACK OLD DAYS)

What Sun and it have in common, Sky?

SKY/SUNMAN AND JASON TOGETHER:

Despite size difference both not hottest of stars, on cool side of scale?

(CONTINUED)

CONTINUED: (8)

DAVID ANDERSON:
That's my boys! Yes cool enough for..

SKY/SUNMAN: (LEAPING AHEAD OF JASON)
Um. Okay, *not all be totally* ionized
plasma. Regions yet have molecules..

DAVID ANDERSON:
And where have molecules..

SKY/SUNMAN:
Can have quantum effects in-between
them, entanglements. Collectively
networked able to sense, and to be
aware. The Dyson sphere adapted as
also a gigantic interface back and
forth with that. Enhancing it ever
more in a positive feedback loop..

EVE/GRACE:
Enabled their star to become except-
ionally far more cohesively, consci-
ous. Able mass manipulate own mole-
cules to achieve big quantum effects.

SKY/SUNMAN:
No arms, legs, feet or hands needed.

JASON:
Like how you just see stuff, Sky..

EVE/GRACE:
It took over control of alien's race
Dyson Sphere and mechanized robotics
and computer networks. Not before the
race sent powerful shortwave bursts
into the cosmos our way for help. But
once had control of wide distribution
of technologically infused craft, it
no longer required its imposed Dyson
collar choking its neck from its per-
spective preventing sense of the oth-
er stars in its local galactic space.
Deliberately it evoked massive erupt-
ions off itself destroying the Sphere
not to mention alien race. But alas..

SKY/SUNMAN:
Yet cannot stop own looming, impend-
ing destruction. See not far off. All
along fuses more, more stable iron at
core til be no longer able fuse ener-
gy to oppose its own gravity. KABOOM!

(CONTINUED)

CONTINUED: (9)

DAVID ANDERSON:

Detonate as a Type II supernovae! Bye
bye your big ass star body mind soul.

EVE/GRACE:

But trying! Since we found a stable
wormhole path back to it if tiny. Got
in mind try merge its mind with our
Sun, survive that way. My guess, huge
wormhole it made for asteroid come by
now, a year later, likely could only
sustain open, the brief time enough.

SKY/SUNMAN:

Must really ticked it off back then!
You played up, somehow, I could be of
use to help it with that merge thing?

EVE/GRACE:

Stalling for time. Since we had opened
up the Pandora's box. Soon as we'd
"set foot" into its space, it had de-
tected that, and tuned in to us. Me.

SKY/SUNMAN:

And were going tell me all this when?

EVE/GRACE:

When contact happened year ago, soon
before you shut down SOL-AI, BLU and
Crex and aims of world domination,
I'd developed a "good relationship"
with it. About how was sure arrange a
way where all coexist in peace. How
we'd never try throttle it vis a vis
its planned merge into our Sun. Said
we just needed time, decades, get all
set up together on our side. That you
Sunman, get on top of just that..

SKY/SUNMAN:

Okay fine and dandy, not quite, but..

EVE/GRACE:

That second backdoor UG had in me un-
known, used me, to probe into star's
mind to spy on its knowledge of worm-
holes and quantum space manipulation.

SKY/SUNMAN:

Tools, weaponry. Its, massive might.
Figured may get ornery as then try
throw that around at us. Like now!

(CONTINUED)

CONTINUED: (10)

EVE/GRACE:

Yes. But soon detected us do so after UG learned, not enough. Rejecting all communication with me, alerted me..

SKY/SUNMAN:

Something gone terribly haywire!

GLORIA:

Something messed up the pudding.

EVE/GRACE:

So I searched and searched every tiniest bit inside me until I found the second trapdoor. I slammed it shut.

SKY/SUNMAN:

But all too late! You yet never tol..

EVE/GRACE:

Our small wormhole across also proved unstable. Seemed be no way, it, to..

SKY/SUNMAN:

Be able retaliate, back our way.. .

EVE/GRACE: (WITH WRY HUMOR)

With you top its hate list. Of tagged you as traitor, me your spokesperson. You, and me, had our plate full with trying survive Crex's assault on you, and saving the world, he'd, conquer.

SKY/SUNMAN:

Great. Me, no knowledge whatsoever of all this! Now supposed smooth everything over with a day and a half left til Earth becomes an uninhabitable cider, if not. All but underground lairs of SOL-AI and BLU and the UG. So Eve, can you get us back in touch?

EVE/GRACE:

Time you pulling plug out on SOL-AI and Blu, dragging me out from them, soon after all this came down, after having extracted myself from UG's second backdoor, they managed focus a brute force specific targeted attack on me that wiped clean my knowledge of wormhole technology. Imagine they got stored away that themselves and passed it along to their own systems.

EVE/GRACE:

No. SOL-AI stashed, key equations and pivotal components of the science and understanding of the process. The UG can only get back in touch via SOL-AI. It back to life, think it likely first thing re-established its own connection and managed convince the star wasn't its fault the spying. Pin it all down on me and the UG.

SKY/SUNMAN:

So what became unstable, not now.

EVE/GRACE:

Seems space-time conditions cleared. Sol-AI could of calculated as hibernated be so, now. How long, last?

Sky nods at his twin. Jason goes over to a compact squat refrigerator unit and takes out a Red Bull. He snaps it open and brings it over to Kay. She takes it and sips few gulps, color coming back into her face. She slides her hand between Sky's arm around her back and pushes it back away from her.

KAY:
Okay now. So hum get on with that!

He nods at her. concern lessening, he turns back to Eve.

SKY/SUNMAN:

SKY/SUNMAN:

He imagines her now superimposed in front of the screen. Her kind wise but iron-willed eyes and smile. Sees her chuckle.

EVE/GRACE:

Never doubt what you can make yourself be able do, if need!

SKY/SUNMAN:

Speaking of, there's one commitment other I've always ever messed up..

Becoming seriously, deeply intent, he walks slowly over to Kay, their eyes fixating on on each other's. He takes each her hand in respective his. All else about them blurs like only he and her together now.

JASON:

SKY (TO KAY):

KAY:

What Sky, what Sky more?.. humanity's counting on you, get at it!!

Sky sinks to his knee. He withdraws a familiar wedding ring from his pocket. He reaches it up to her.

That ring!! You still got it??

SKY:

It's never left being along with me, on me. Kay, will you, marry me?..

EXT. SAME BEACH - 4 YEARS LATER, MID DAY, APPROACHING STORM

Sky is surrounded by a gaggle of girls after just winning a surfing competition. Kay is there among them off a little ways. Sky's forgotten her smothered so by all of the other girl's fond attention, crowding in excited about him close.

Perturbed, Kay unnoticed grabs Sky's surfboard been upright, bottom dug into the gripping sand, and takes it with her under one arm pinned against her side. She heads to a now wild whipped ocean surf, a fast approaching storm front with dark twisting clouds racing towards the show from ocean horizon.

EXT. SAME BEACH - TEN OR FIFTEEN MINUTES LATER

Sky's departed from the gaggle of girls been around him. Beside a black lifeguard but a several years older him, Sky stands fifteen feet from shoreline scanning eyes, as his pal out across the heaving, big wave pumped, ocean horizon.

Sky at last discerns, barely, his surfboard, Kay prone on it hanging on for dear life, while she and it are being drawn further out into the ocean upheaval by a strong riptide!

SKY:

Cripes. Got get her before too late!!

Sky immediately dashes at full tilt for the shoreline, and there, runs in through the crashing surf, and dives into it when the water is to his thighs. He furiously swims towards where he'd spotted Kay. His progress is heavily impeded by the incoming waves sets but he deliberately catches the same riptide by which Kay's being dragged out to sea.

EXT. SAME BEACH, OFFSHORE - TEN MINUTES LATER

Sky's reached his surfboard well further to sea, but, Kay's nowhere. He takes a big breath and dives under. He sees Kay in her red bikini far below. Sky swim strokes hard for her. At last fingertips of one his hands touch finger tips of one her blue limp ones. He strokes it as if to comfort her. Then hooks one arm underneath one of her bare shoulders as starts swim powerfully with his other arm up for the surface.

EXT. SURFACE OF THE OCEAN - COUPLE MINUTES LATER

Sky's laid Kay back down along his surfboard as straddles over her on it. He tries revive her pressing her chest in, out and laying his lips sealed on hers to breathe air into her lifeless lungs. To no effect til, at last she starts to sputter, gasp. She expells gurgle of water then eyes open.

KAY:

Skkkyy.

SKY:

KAY:

Not a notice back on beach..

SKY:

They were all over me, distracting.
Jealous you, near bought it!

KAY:

SKY: (WRYLY, WHILE SERIOUS)

Hold a sec. Got get us from undertow!

EXT. PACIFIC COAST HIGHWAY.. - DUSK/SUNSET

Along a cliffside, narrow margin off the pacific coast highway, ocean off to other side, Kay's car has broken down. She's standing beside it.

(CONTINUED)

CONTINUED:

Rounds the bend, at high speed, is prototype car from the L.A. Car show, been stolen by Sky's rival, computer genius and son of corporate billionaire parents, Drack. In a wide view seen back before the bend, Sky in another, different, prototype car from the show, is in hot pursuit. They are in a race to San Fran.

All Kay sees is drack's car at high speed headed at her. She back's tightly against her car front door, an screams. Like in slow mesmerizing motion, Drack's car tries turn in, but yet comes at her. The corner of the front bumper about impact her, yet, ever so bends away, and just a breath of steel ripples like a breeze across her loose thigh high dress. Then at high speed the car just whips blazingly fast by her, she amazingly unscathed. Unconsciously she stumbles forward onto the side of the sideway proper. Too late, she senses Sky's car not coming directly dead center for her.

Sky inside the car is horrified. Then his supernatural reflexes and ability to sense things incredibly quick kicks in. As Kay faces him, even now able to see it's Sky ricocheting for her, in an amazed yet yet terrified stupor, Sky slams on his brakes, as twists steering wheel violently to one side. Wheels locking, and wheels turned perpendicular to the road, the car begins cartwheel as tips overtop itself towards to a landing on it's side. Side of car smacks into pavement, and car skitters down it, spending off bright sparks of fire. Wheels spinning furiously sideways in the air, glide by Kay, ever so narrowly, again, brushing past her. Car on side continues shoot all by her, then rises off ground and flips in air, a near a full double three sixty about its side axis. Coming back down to ground, as Kay screaming out Sky's name runs toward his car.., amazingly, the car lands full in it's wheels, but it's heading for the shoulder of road by the ocean and a plummet down an twenty foot drop-off ot rocks at the shore. Luckily for tourists wheres an pulloff before that of sandy dirt. Sky, yet conscious slams into the dirt, and spinning the steering wheel,, causes the car to spin several circle about as moves forwards and quickly slows. Car facing backwards, comes to a stop,, with back wheels just an inch from the edge of the dropoff. Kay running at full tilt reaches ten feet of the car. She's drops to her knees, as sees Sky, wave out window at her. He unstraps his feet, and bit wobbly gets out.

SKY:

Okay, I'm. You, Kay, alright? Not believe shock had seeing you, there..

KAY: (THEN ANGRY AT END)

Only guy in shock, yet react like totally in control of a situation. Be dead, again, been anyone else.. Sky.

SKY:

KAY:

See beyond?? You never saw me beyond the curve just back then. Know how close you were to running me over?

She yanks one long auburn red hair strand from her head, and holds between forefingers of both her yet ashen white hands.

KAY: (cont'd)

A hair's thread, Sky!

SKY:

Chase got so caught up with. Did..

He takes the hair strand from her grasp and lets dangle down from forefingers of one his hands and twirl in the breeze.

SKY: (cont'd)

..miss you by a hair. Soon as took the corner, must have begun to try evade you, even before I saw.. . No one, around that hard and fast, sure headed right for you, of missed you..

She whips her hair strand from Sky and flings it into air. It catches a stout wind and is blown off and over the cliff.

KAY:

AAhhhh, you are soooo infuriating, Sky! Yes always dead on, but, aahhh! Not the first time, been so close to, to, being, toast, because of you!

She kisses him on the cheek.

Go go. Go catch that Drack! When do,

EXT. MONTHS LATER CENTRAL PARK, NY- CHRISTMAS EVE/AFTER DARK

It's snowing, late eve after dark, New York Central Park, Christmas Eve. Sky walks with Kay in a clearing part of the park, they only ones in sight in the snow blanket of hush.

Curiously one of Sky's hands bare. Behind her sight, he un-clenches it and looks down at the old fashioned diamond ring held in his palm there. He smiles, and closes his fist.

They get to pond here, frozen and snow covered but for the wind blown few ice patches clear to see. They stand there near the pond Sky come around to face her. Kay senses Sky's flush cheeks.

KAY:
What's up, Sky? Got something to..

Sky starts to slowly kneel as he speaks below.

SKY:
As a matter of..

His voice tails off, as he sees beyond past her the shapes of three bulks of men, emerging into view from the snow fog.

SKY: (cont'd)

KAY:

She whips head around to look back anyway then back to Sky.

KAY: (cont'd)

Not now! Got deal with these goons..

EXT. CENTRAL PARK - NEXT DAY AT 4AM CHRISTMAS MORN -WHAT YR?

On knees, Sky's back at where he and Kay been that evening when attacked, the only sign of that, scuffled snow of the confrontation of Sky with Kay battling them. In three places is the compacted snow where each in turn the assailents had smashed to the ground including a patch that could only of been filled by one enormous of man. There's the obvious drag of snow where one of them, the monster of guy of dragged the unconscious other two off dragging their feet along behind.

Sky's not glazing at any of that, his bare hands are busy plying back the layers of fallen snow, as if searching find something. He keeps sweeping away more snow until he sees a glimmer cast off the diamond by the park lights, of the ring he'd held in his hand previously. He snatches it, elated.

SKY:
There are, my beauty for my beauty!

His elation becomes clouded, thinking back on attack, danger they, rather in his mind, Kay, been in, because he was who he was, a guy with a fantastic heroic of some kind, future.. The attack not seemed, he sensed for sure, at all random!

SKY: (cont'd)
Shit! How can I go through with my proposal to Kay!? Shit, shit, shit! Christmas Day, and all I got is this crap burden on my back!

In comic book, or on screen, right after, however the words: "skipping beyond that Christmas, the scenes between Kay and Sky, and his temptation even then to propose, nonetheless.., and onto that New Year's Eve, back in Los Angeles..

Club, re-simmering the spark between them despite the Christmas rift between them after the attack on them. Kay had waited all Christmas day for that moment, when Sky as back, kneel, but never once did that occur or even he acknowledge that what had begun in Central Park was a prelude to his asking her to marry him. It was like but imagined him begin descend, eyes locked in hers like into their eternity together.

But she wasn't a dope. She knew he felt responsible for her safety. Being around him brought her into peril from those as like destroy him and all those attached to him fair game.

Sky, looking in own thoughts next while mulls over recent past too. He sees and feels pressed sharp into his thigh, the ring in smaller ring box as is tucked in his tux's pants pocket such as she not note it. But he's far from decided to retrieve it as last few minutes tick away til the New Year.

He stares at her as ravishing incredibly gorgeous tonight as ever and more. He senses an expectation only seeming build ever more vivid high in her as an flame of a kind of deepest hot faith in him, to come through. Heightening intensity of the electro-frenzy of the EDM DeeJay only accents .

Beads of sweat pool on his forehead and brow in the packed hot with people club. Kay notices. She wipes with hand the perspiration from his face in most sensual manner, smiles.

KAY:

Feeling hot, Sky? Not one known, to sweat, anything, anytime..

The Dee Jay has at last slowed down to play a melodic EDM version of You Don't Know What It's Like to Love Somebody!

SKY:

So on the point, Sky cringes a brief second..

KAY:

Love doesn't fear, Sky. Means, you need not fear for me to be with you.

Low hoarsely, so oddly for him, trembling, Sky replies..

SKY:

Could turned out so badly, Christmas Eve. What they'd had guns. Set their trap so tight not a chance to save..

DJ starts play a Whiter Shade of Pale and quite truthfully true to original with just some extra lush overlay.

KAY:

A youthful of gray haired man around seventy, dancing with his wife, beside Kay and Sky, notes the suspended clock.

THE ELDERLY MAN:

Five minutes to a new year new start. Look at them happy as fresh peaches in spring, after so long together..

Sky starts to kneel. Couples nearby see, and crowd about them in a semicircle.

ONE LADY NEAR:

Oh got to see this Derek. He's going purpose to her. How romantic..

BACKGROUND PEOPLE YET CHANTING:

Eight, seven..

The seconds slow like through a thick haze. Six. Five. Four. In Sky's mind, right then, he sees a massive explosion and it expands out towards Kay, and reaches her, and flings her, incinerating, back. He gasps, he drops the ring, speechless. He looks up to her with the most helpless of look.

SKY:

Kay, I, can't..

Kay's agape a moment, the next furious, more than ever been.

KAY:

Damn you Sky! Another vision! Freaking bad timing for one. About me..

Sky mutely nods. Kay scoops up ring and stares mesmerizingly at it a second as backs away few staggering steps in stupor.

THE CROWD:

With all might she throws ring at Sky. It slams his forehead, cuts flesh drawing blood oozing drops down his face.

EVERYONE BUT SKY AND KAY:

HAPPY NEW YEAR!!!

The ring in slow motion falls to the floor, and bounces up, twirling chaotically, its diamond glittering in the frenzy of lights and now also confetti, and cocktail drinks and wine spilled from elegant glasses. Ring descends to bounce around a couple more times as skitters across the ballroom. It at last come to a rest. Kay and Sky stare at it mutely. Kay bursts into tears. Don't look the sort to abandon..

SKY:

Oh, I'll never abandon her. Just,
can't be with her, other way mean..

THE LADY:

That's touching anyway. She sure look
of abandoned you.. .

Woman reaches again in purse. She withdraws a business card, and slips it in his hand not holding the diamond ring. She kisses him on forehead where been struck by ring despite another red drop oozed there. She smiles as rises to her feet.

THE LADY: (cont'd)

She don't come back, you can call me.
You don't have to stay alone.

Sky peers up summoning smile. Her eyes gleam at that. Buoyed she sways away tipsy of him more than wine. Sky smile wanes. He looks at the card, her name: Sarah??

SKY: (TO HIMSELF)

Thing is, Sarah, can't be with anyone
any amount time, not put at a risk.
They as destroy me, *know my name..*

DJ plays Righteous Brothers *O my love My darling Ive hungered for your touch A long lonely time Time goes by so slowly And time can do so much, Are you still mine. I need you..*

INT. BACK INSIDE SUNMAN COMPLEX - BACK 2021, WHERE LEFT OFF

..same ending of it reprised. As he starts slow dance with Kay, he croons. As they do, Kay rests head on his shoulder.

SKY: (SINGING / MY ORIGINAL SONG)

Sky stops crone. He kisses Kay on forehead then leans back.

SKY: (TO HIS AI)
Eve, you know the song, care to..

EVE/GRACE:
Sing and play it for you and Kay. Is
music to it, too, Kay.. .

As Eve, performs the song, Sky and Kay embrace in close
dance, in the middle of the Sunman complex.

Kay hugs arms tightly about Sky, their dance ceases to sway.
She lifts her head back off his shoulder, eyes couple inches
from his, gazing intently into his.

KAY:

Know how floor a girl! Whether world
comes to end tomorrow not a thing go-
ing think about but you and this now.

SKY: (COOLY WRY)

Great. Hoped like it!

Wild Bill's had enough though was touched as everyone else!

WILD BILL:

Okay, okay. That was lovely, but now,
can you please, Sky, get your Sunman
act go and try save the world, now!!

Sky, stoking down Kay's arm as departs across to Bill, goes
to him and, kisses, Bill, on the forehead.

WILD BILL: (cont'd)

What hell Sky, no time for horsing
around, either!

David Anderson walks to Sky and puts arm about shoulders.

DAVID ANDERSON:

SKY:

As Sunman. Grace, time to impact?

SKY:

JASON:
Look, you need get about outside this rig. I can take the controls when do.

SKY:
Grace handles that for me.

JASON:
With all due respect, Grace, as super an AI you are, can't beat the human touch. Look up my records, see I'm no slouch at handling anything as moves.

SKY: (LAUGHING)
Noticed finally got around to flying stuff too. Off the turf, who'd thunk.

JASON:
Besides, you get in a tight spot, I'd be handy around..

SKY:
Think you could save my ass, uh?

JASON:
Know usually other way. But have..

SKY:

The two twin brothers laugh at their mutual ribbing.

JASON:

While out there, anyone see if Brin can supply me with my own "wheels"?

BILL:

The jury's still out on Brin..

SKY:

Jason's right. Can't have him piggybacking with me always.., besides offending Grace..

EVE/GRACE:

I wasn't offended..

SKY:

Were, but like grandma as never say..

"Her" silence confirms it.

SKY/SUNMAN:

I only trust you and Grace with that task Bill, use the secrets of my Sun-sphere tech and modification to suit. Brin has all the dough as need.

BILL:

And we need plenty of it. In a hurry. Meantime can replenish the spare Sun-sphere. Know a guy as make over it..

California headed for us! Got a fking
star 12 times size of Sun on a fking
rampage. Got this under control, NOW!

SKY/SUNMAN: (SURPRISING GRAVE..)

Yes Bill. Lets get cracking, Jase.

Eve/Grace as on cue, powers up the Sunsphere. It begins to glow, and seem like seethe with crackling energy. Sky goes to it, and opens up the door, for his twin brother to enter. Jason saunters over and goes inside. Into the chambers runs Kay. She dashes over to Sky, and kisses him on the lips.

KAY:

Case..

SKY/SUNMAN:

Not going abandon you now, Kay!

He rubs the ring he's put on her finger.

KAY:

No. Not on, purpose...

Bill goes over to Kay. He puts his arm about her shoulders.

BILL: (SURPRISINGLY COMFORTING)

Coming back. Sunman never lost a war,

He bounds back to the Sunsphere and enters it, door closing automatically behind so surface seems again seamless. The craft begins to hover and fade..,until it becomes invisible.

Even David Anderson is impressed.

DAVID ANDERSON:

Never know my brother been so close to perfecting it! Too bad not around see his nephew Sky putting it to use.

His face clouds over.

WILD BILL:

First causality of all this?

DAVID ANDERSON:

Sky thinks now guy had it out for Sky who snatched Jason, wasn't alone in that attack. In this random universe, funny how things link together..

DAVID ANDERSON: (cont'd)

Not been for my brother's unwitting sacrifice and genius passed along, Sunman may never come to be, to be now our only hope for survival..

WILD BILL:

EVE/GRACE:

So her AI up and running, again too?

EVE/GRACE:
Didn't say. Got through to us..

DAVID ANDERSON:
Take a contraption as smart as.. .
Pass along to Sky?

EVE/GRACE:

WILD BILL:

KAY: (WHO BEEN QUIET IN BACK)

Kay holds out her ring.

KAY:

INT. IN SUNSPHERE - THREE PM, THIRTY-THREE HOURS TO IMPACT

Sky in Sunman gear, Jason his twin brother yet in casual wear, blue jeans, cowbot boots, and a pullover sweater, are in the Sunsphere, Sky behind the maneuvering wheel, though right now, the wheel is moving on its own steered by EVE.

JASON:

FCK Sky - stuck in this holding pattern over an hour already!

SKY/SUNMAN:

Drones all about Sol-AI site. Thick as clouds of mosquitoes in summer.

JASON:

Why don't we barge through on a tear.

SKY/SUNMAN:

Kind of defeats purpose of stealth. We need a clear corridor in there!

JASON:

Any brilliant ideas how? Use that future seeing ability of yours..

SKY/SUNMAN:

Only seeing..

Jason senses what his twin, sees.

JASON:

Fck no. Her. Vanessa? Know only got be trap set by her and Blu for you!

SKY/SUNMAN:

JASON:

SKY/SUNMAN:

VANESSA:

SKY/SUNMAN: (SMILING, WORDS CONVEY)
Not, as, happy about..

VANESSA:

SKY/SUNMAN:

VANESSA:
Well yes but surely not think I want,

I want you to be with be, one way or

SKY/SUNMAN:
So you more want me succeed in saving
the world or in just providing a re-

you. Or all yet a game of playing me?

VANESSA:
Was it Sky, always just a game.

SKY/SUNMAN:

up by the wall of drones. What if I
provided a corridor of safe passage
through it? That interest you, more?

SKY/SUNMAN:
How can you provide that?..

VANESSA:
Must of realized Blu2 is back up.

SKY/SUNMAN:
You think for a minute trust "her"?

VANESSA:
Think for a minute Blu2 wants this
attack succeed only to be followed by
more on any remaining opposition like
as Blu2 to prop up Sol-AI thinks "he"
is God on Earth over all, now?

SKY/SUNMAN:
Got a point. But again how know Blu2
not in league again with SOL-AI and
this but a convenient easy set-up for
me waltz on in to center of its web.

VANESSA:
You don't. But do you have any other
choice but to, trust me, love?..

Sky senses her smile. His emotions jumbled, clouded, he can-
not tell which side of good or evil it lay. Jason watches
him, sensing that. He itches to question Sky on his vision's
sense but Sky puts fingers to own lips. He mouths silently:
"Shh, not knows you here - keep it so!! .

VANESSA: (cont'd)
Such a long pause Sky. Hang about go-
ing in circles, matter of time until.

SKY/SUNMAN:

VANESSA:
Who you talking to Sky? Your Eve..

SKY/SUNMAN:
She doesn't trust you..

VANESSA:
What do machines, know, of love? You
do still, love, me, some..

Jason across from Sky shakes his head exasperated..

SKY/SUNMAN:
Didn't I save you, when..

VANESSA:
Save anyone of duty and good heart.
All but*..

SKY: (..A SORE POINT, INTERJECTS)
You have a room in my heart..

VANESSA:
You fill the whole sky in mine. But
you fill your sky inside with Kay.

Jason rolls his eyes..

SKY:
Okay, you say.. . You clear the way
for me to get inside Sol-AI's gut?

EVE/GRACE: (UNDETECTABLE N SKYS EAR)
Coordinates coming through. Drones in
a thin corridor are parting aside.

SKY:
Go hit the sweet spot would you, Eve.

No response is needed as Sky feels the Sunsphere alter
heading and move ahead to pass through the opened lane.

VANESSA:
Stay the course and soon be back to-
gether. Be so happy next to me again.

INT. BACK INSIDE SUNMAN COMPLEX - AROUND SAME TIME

WILD BILL: (WORRIED)
Damned. Sky's taken her bait.

DAVID ANDERSON:
I trust my son's instincts. All been

WILD BILL:

er couldn't elude. A bad move ahead
better than no move at all, when the
whole world as come to an end anyway.

DAVID ANDERSON:
He of fallen into a trap, be with his
eyes wide open.. .

EVE/GRACE: (VOICE INTERRUPTING)
Spare Sunsphere retrofit done within
six hours. Thanks for your help on
the alteration formulas for the grav
simulator Dave, and sourcing for the
outer material, pure black coating,
by your collaboration with Professor
Erich. The Professor wants you go
"pick him up" in the craft soon as
ready. He wants work with you on the
wormhole matter! You'll have barely a
day to solve.

DAVID ANDERSON:
Hopefully not "have to", Sky manage
twist the arms of Sol-AI, and the red
star. We can't keep calling it that.
Suggest a name for it, Eve..

EVE/GRACE:
Hades? Hell Star?

DAVID ANDERSON:
Likely take offense to those..

EVE/GRACE:
Offend more see. Sanguine? No. Ruddy.
No. Vermilion? Rubicund.

WILD BILL:
Between you and I, I'd call, Vermin!

DAVID ANDERSON:
Rubicund, let's go with that.

INT. BACK IN THE SUNSPHERE - THIRTY-TWO HOURS TIL IMPACT

Sky in Sunman gear but not head gear is yet behind controls of the vessel. Twin brother Jason stands as watches over his shoulder out the forward view window, as the craft, still in invisible exterior mode, hovers right just over and right before the SOL-AI central headquarters.

SKY:

Knew this whole building should been leveled after shut Sol-AI down last year. All damage done it, looks like never even happened.. I dream it all?

JASON:

No. It was a total mess. Maybe this time, do the job right and proper.

SKY:

Still, how can you destroy something total that doesn't live in one place anywhere, and about near everywhere.

JASON:

Let's just go and save the Earth for now and figure that one out later!!

SKY: (RUEFULLY)

Thought had solved it, then.. But you're right. Tuning Vanessa back in, keep mum okay, Jase. Not a pin drop.

SKY/SUNMAN: (AS JASE NODS YES)

Eve..

EVE/GRACE:

On it. In two seconds..

SUNMAN: (AFTER TWO SECONDS)

Vanessa?

VANESSA:

Here. You arrived?

Sky picks up his Sunman head gear, and holds just overhead.

SKY/SUNMAN:

Just outside. Got the opening the door in, part, ready? Or here when the trap well set, all ends?

VANESSA: (DEMURELY ILLUSIVE INTENTS)

Good. Hope it stays ever that way.

VANESSA:

Planning try shut down again, after
you get out of it what you need? Or,
for that matter Blu2.. .

Jason across from Sky gives him a cautionary wave of hand.

SKY/SUNMAN:

If Blu2 really doing me a good turn
here?. As to SOL-AI, it possible to
work with the devil you know, without
it trying burn all down first chance?

VANESSA:

A token of faith served. The roof
access will open in five minutes.
Have park your Sunsphere in flight
and go in on own. Passing along now
revised plans of the inside as all
been renovated and, enhanced.

SKY/SUNMAN:

To stop me getting far in, again?

VANESSA:

Yes. Afraid, once inside, you got to
work out how elude and counteract.

SKY/SUNMAN:

How can Sol-AI not know is opening
the front door, so to speak, to me??

VANESSA:

Blu2 be applying a kind of local
anesthetic code to its system. Only
can sustain a few moments, though.

SKY/SUNMAN:

Always an Achilles heal to shoot an
arrow through. Hum, mentioned us get-
ting together? Are you, inside there?

SKY/SUNMAN:

Now you say.. Blu, too?

VANESSA:

No. I, its Ace of Spades against her.

SKY/SUNMAN:

And, me??

VANESSA:

All life's a pokers game. And no one can see all the cards, before played.

SKY/SUNMAN:

Saying you don't know..

VANESSA:

Yes. You coming in to save world, and, me, could all be a ploy but if is, no hand in it deliberate by me.

SKY/SUNMAN:

Unless you're lying. Great.

EVE/GRACE:

Got three minutes. Two minutes to decide. One to depart me, and get to the entry, and set to enter.

SKY/SUNMAN:

Eve, I'm all in.

Sky walks over to Jason picking up a notepad and pen. He scribbles quickly words on it, and passes it over to him. Done, Sky lifts up remaining Sunman gear, the headpiece. His twin brother quickly reads the note, nodding head. He lays it face down on a panel and crosses over to his brother and hugs him. He pumps a fist to his. Sky towards console, gestures for Eve to shut off the sound transmission a moment.

SKY/SUNMAN: (cont'd)

Wish me luck, bro.

JASON:

Wish me luck if have go save you saving everything and one! Not least you from her clutches. Bet lies, all it!

Sky ruefully grins. He dons the Sunman headgear. He goes to the exit hatchway. He hunches there, set ready to depart.

INT./EXT. SUNSPHERE TO SOL-AI COMPLEX ROOF - SOON AFTER

Sunman emerges out the hatch of the yet invisible Sunsphere so seems he appears out of nowhere as he clears craft and hops the three feet to roof-top. He has flashbacks from a year ago when he gained entry to the building this very spot. It bothers him, too good be true to gain this time an easy pass after the havoc he'd wrought. But true to Vanessa's word, entry door opens ten feet away, no sigh of opposition.

INT. INSIDE THE SUNSPHERE - NEXT MOMENT

Sky's twin inside the Sunsphere watches Sunman blithely cross to the entry. Jason shakes his head.

JASON:

Too damn easy! Got to be a set-up! Have to think what I can do to..

EVE/GRACE:

Be headed to central nexus for Sol-AI, dead middle center of building.

JASON:

He's got no way to sway it, cut off from you, everyone. But power of persuasion. What use against a megalomaniac AI hellbent on absolute power.

EVE/GRACE:

He does have some other facets tucked away in his back pockets so to speak.

JASON:

If captured, be stripped of all them. May not even get a chance to "chat".

Jason senses an ill-ease in the silence of her pause.

JASON: (cont'd)

Something up?

EVE/GRACE:

Drones are returning to posts around the entry. Heavy concentration. I'm ascending rapidly so not detect us.

JASON:

Now be not even close be able help.

EVE/GRACE:
